RE: Cedar Lake Road improvements project

Public meeting #2 - Wednesday, Sept. 12, 5:30 - 7 p.m.

Dear property owner/resident:

Cedar Lake Road, between Kentucky Avenue and Quentin Avenue, is scheduled for rehabilitation during the 2019 construction season. This project includes pavement replacement, intersection improvements, a new bicycle facility, new sidewalk, trail replacement, watermain replacement and miscellaneous utility repairs. A map showing the location for the improvements is attached.

You are invited to a public meeting to discuss the Cedar Lake Road project scheduled for:

**Wednesday, Sept. 12, 5:30 - 7 p.m.**
**Presentation at 6 p.m.**
St. Louis Park City Hall – Third floor City Council Chambers
5005 Minnetonka Blvd., St. Louis Park, MN 55416

At the first public meeting, attendees were presented the scope of the project and helped identify project needs. The purpose of this second public meeting is to gather feedback on the proposed corridor layouts and answer questions.

At this meeting, you’ll learn more about the proposed project, including information about the overall street rehabilitation project, provide feedback on new bicycle and sidewalk facilities, and communicate important issues that should be addressed with the construction project. You’ll also learn about future meetings where your input will be requested and taken into account when making final plans for the project. Throughout the public participation process, city staff is committed to keeping residents informed, listening to and acknowledging your concerns, and providing feedback on how resident input influenced final plans.

If you have any questions, or are unable to attend the meeting and would like to make arrangements to discuss this project at another time, please call me at 952.924.2552 or email at jshamla@stlouispark.org. We look forward to working with you and your neighbors.

Sincerely,

Joseph Shamla, P.E.
Sr. Engineering Project Manager
