Submission checklist

NEW — Alterations and addition commercial building permits and plans will be accepted in digital format and uploaded at ePermits webpage <https://www.stlouispark.org/services/permits>.

NEW — At the time of submission, 50 percent of the estimated plan review fee will be collected. The fee is nonrefundable, but it will be put towards the plan review fee once the permit is issued.

- Completed building permit application and checklist (Application not needed for electronic submittals)
- One full set of construction plans signed by a Minnesota state licensed architect and/or engineer, including architectural, structural, civil, site, grading, utility, landscaping and lighting plans
- One digital spec book
- [Energy code calculation worksheet](#)
- St. Louis Park [public right of way permit application](#)
- St. Louis Park [erosion control permit application](#)
- [Special inspection and testing agreement form](#)
- Soil testing report
- SAC determination letter from the [Metropolitan Council](#) is required prior to permit issuance

****Please allow a minimum of 15 business days for plan reviews****

****Additional documentation may be required due to variations and/or revisions of projects****

*Additional permit applications are required for electrical, plumbing, mechanical, sewer and water, fire protection, food and beverage, parking lots, driveways, fences, working in the right of way and erosion control.

Plans and specifications must be signed** by the Minnesota Registered Architect, Engineer, or Surveyor who prepared them when required by the Minnesota Administrative Rules 1800.5200, see attachments. **Electrical, Plumbing, and Mechanical plans do not need to be signed if there is no changes to the load on the systems involved.

Preconstruction meetings can be arranged by calling the St. Louis Park Inspections Department at 952.924.2588
