Nov. 8, 2019

RE: 2020 Walker Lake Construction Project (4018-1050)
Public information meeting: Tuesday, Nov. 19, 2019, 2 p.m.

Dear Business Manager or Property Owner:

The City of St. Louis Park will host a public information meeting to discuss the proposed 2020 Walker Lake Construction Project. Date, time and location of the meeting:

Tuesday, Nov. 19, 2 p.m.
Community Room
First Floor, St. Louis Park City Hall
5005 Minnetonka Blvd, St. Louis Park

Included with this project is the realignment of the Walker/ Lake Street intersection, construction of a sidewalk on the east side of Lake Street between Dakota Avenue and Library Lane, an addition of a bicycle facility on Lake Street between Wooddale Avenue and Walker Street, reconstruction of the alley between Library Lane and Walker Street, reconstruction of the alley from Library Lane to the Highway 7 frontage road, and new watermain. The funding for this project will be provided by city funds.

We have received additional feedback from adjacent property owners, that have resulted in modifications to the plans, including; driveway locations, parking, and drainage. A map of the proposed improvements is attached.

At this meeting, you will learn what to expect during construction, have the opportunity to review the current layout, and provide feedback. Staff will use the comments received at this public meeting to help guide the final design for this project.

In early 2020, city staff will ask the city council to approve the final plans. This project is scheduled to begin in May 2020 and is expected to be completed in October of 2020.

Meeting notifications are sent via direct mail and email from the city. To sign up for email updates or to view the status of the project online, please visit the city’s project website at: https://www.stlouispark.org/construction-updates.html.

If you are not the correct contact person for the meeting notifications, please provide us the name and address for that person to receive future notices. Please contact Joe Shamla at jshamla@stlouispark.org or call 952.924.2552.

We encourage you to attend this meeting. If you can’t, please consider sending us an email or calling to discuss your thoughts.

Sincerely,

Joseph Shamla
Sr. Engineering Project Manager
