RE: 2019 Louisiana Avenue Reconstruction Project
Open House: October 4, 2017, 4:00-6:30 p.m.

Dear Property Owner:

Louisiana Avenue between 400 feet north of Oxford Street and Excelsior Boulevard is scheduled for reconstruction during the **2019 construction season**. A location map is attached. This project also includes the replacement of the bridge over Minnehaha Creek.

This project includes bridge replacement, road reconstruction, traffic signals, bikeway facilities, and sidewalk. The City’s consultant, Kimley Horn, is working on the analysis of existing and future bicycle, pedestrian and vehicle traffic to inform decisions on how this segment of Louisiana Avenue is rebuilt.

A public meeting about the Louisiana Avenue Reconstruction Project is scheduled for:

**Wednesday, October 4, 4 p.m.-6:30 p.m.**
Municipal Service Center, Multi-Purpose Room
7305 Oxford Street, St. Louis Park

The purpose of the open house is to gather feedback on the project and on the design options. At this meeting, you’ll learn more about the proposed project, including information about the overall street reconstruction project; review preliminary options for the corridor; and be able to provide feedback to city staff.

Throughout the public participation process, city staff is committed to keeping you informed, listening to and acknowledging your concerns, and providing feedback on how public input influenced final plans.

If you have any questions, or are unable to attend the meeting and would like to make arrangements to discuss this project at another time, please call me at 952.924.2552 or email at jshamla@stlouispark.org. Also, if you would like to track project progress, please sign up for email updates by visiting the City website at:  https://www.stlouispark.org/our-city/stay-informed/construction-updates

We look forward to working with you!

Sincerely,

Joe Shamla, P.E.
Sr. Engineering Project Manager
